Telephone Tip

You have just settled down to have a relaxing and well-deserved meal with your family after a long day at work and the phone rings. You answer it only to hear the sales pitch of a telemarketer! It happens to us all, but you can help prevent it by adding your numbers to the National Do Not Call registry. Simply point your internet browser to www.donotcall.gov and register your home and cell phone numbers. After your information has been in the registry for 31 days most telemarketers cannot call you and if they do you can report them. Best of all, registration is free and lasts for five years!
